Changing Amazon *QR Codes* into Shipping Labels

Currently there is a proprietary software agreement between ***Amazon***, affiliated companies, and ***The UPS Store*** franchise that does not allow for Point of Sale Systems servicing UPS Authorized Shipping Outlets (***802Notarize***) to create labels by scanning their *QR codes*. While we are able to scan QR codes for ***FedEx*** and ***USPS***, availability for ***UPS*** may come late 2025, early 2026.

Step by step instructions can be found on the reverse of this flyer.

HOW TO CHANGE YOUR QR CODE INTO A SHIPPIN LABEL

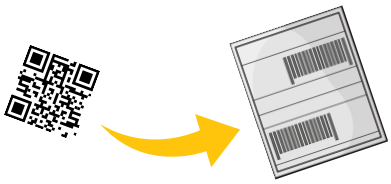

- Log in to your Amazon account.
  - Click on Menu Button and choose “Orders” (top of screen).
  - Click on the item being returned.
  - Click on “View Return/Refund Status” (last of 3 choices).
  - Cancel your return.
- Click the BACK Button or go back into your Orders and choose the product you want to return and Submit for a Return on that same product.
- Choose your Refund Method and Click Continue.
- You will see the UPS Store option as the default option…. You Choose UPS DROP-OFF (Box and Label Needed)" option and click on “Confirm Your Return”.

HAVE PACK’N’SHIP@802NOTARIZE PRINT OUT YOUR LABEL

- Click on "EMAIL COPY OF LABEL" and choose "SEND TO A FRIEND".

- Enter email address – You can send directly to us at **bizcenter@802notarize.com**

- Click “Send Email” and we will print your label for you! If that doesn’t work for you, call Amazon at ***1-888-280-4331*** and ask them to send your return label to your email address or email to us at bizcenter@802notarize.com and at the same time register your complaint about the hidden buttons. If they get enough phone calls, they will change back to showing all the options.

Thank you for choosing the Pack’n’Ship @ 802NOTARIZE
